

Repertory Grid

A repertory grid compares features or modules (e.g., cart system, payment gateways) based on criteria like ease of use, performance, and scalability to identify areas for improvement.

Repertory Grid Table

Element	Easy Digital Downloads				
	A Ease of Use	By Performance	Maintainability	User Satisfaction	Scalability
Cart system	4	5	3	4	4
Discount codes	3	4	2	3	3
Core module	5	5	4	5	5
Customer management	3	3	2	3	3
